JA Mitsui Leasing, Ltd.

Announcement Regarding Establishment of Silicon Valley Branch
by JA Mitsui Leasing's US-Based Subsidiary

JA Mitsui Leasing, Ltd. (hereinafter "JA Mitsui Leasing") announced that JA Mitsui Leasing Capital Corporation (hereinafter "JMCC"), a US-based subsidiary of JA Mitsui Leasing, has opened its Silicon Valley Branch. Details are as follows.

JA Mitsui Leasing Group provides financial services to meet the various needs of customers in the semiconductor industry by taking advantage of the knowledge and networks that it has built in the industry. To go beyond the finance sphere and provide a broad range of service solutions, in December 2014 it also invested through JMCC in AG Semiconductor Services, LLC (headquartered in Connecticut, USA; hereinafter "AGSS"), a general supplier of used semiconductor manufacturing equipment.

JMCC has recently established a new branch office in Silicon Valley, where US semiconductor-related companies are concentrated, as a sales base for its semiconductor business. This will enhance its sales structure for the US semiconductor industry and further strengthen its partnership with AGSS, enabling JMCC to capitalize on the valuation and remarketing function of semiconductor manufacturing equipment and the global sales network of AGSS to provide a wide variety of flexible service solutions to more customers.

JA Mitsui Leasing Group will continue making efforts to improve its services even further.
